

# RESTART

## Returning Wounded Veterans to the Path of Life

### Who We Are

Founded in 2014, Restart Global is led by wounded IDF veterans who know and experience the challenges of rehabilitation firsthand. We provide critical support during the transition from hospital care to reintegration into everyday life.

Partnering with Israel's tech industry, we deliver tailor-made individualized technological solutions and personal and professional development programs that empower veterans to rebuild resilience, confidence, and purpose.

### Impact

800+

wounded veterans supported through our programs.

300+

custom technological solutions created.

45

partnerships with leading Israeli tech companies.

1000

dedicated volunteers.

### The Current Challenge

An unfathomable **20,000** soldiers and security personnel have been wounded since the Hamas attack on October 7th, 2023, and the ensuing Swords of Iron War. By 2030, the number may reach **100,000**. In response, Restart has expanded its operations, mobilizing alumni and volunteers to deliver hope and create hundreds of life-enhancing solutions in rehabilitation wards across Israel.

### Our Programs

#### MAKERS FOR HEROES

Teams from Israel's leading tech industries design groundbreaking tailor-made solutions that enhance wounded veterans' independence and quality of life.

#### MENTORS

This program matches wounded veterans with industry leaders for a transformative journey focusing on setting and achieving personal goals, and providing them with tools to construct their path back to life.

#### STORY TELLERS

Enhancing resilience and empowering wounded veterans by helping them frame their own narratives and share their stories of injury and recovery by learning to become impactful, motivational speakers.

#### REISTORY

An international speakers bureau that provides communities around the world with the opportunity to hear the inspiring stories of wounded veterans, all of whom are alumni of our Storytellers program.

### Some of our partners

### Join Us!

Become our partners in ensuring that every wounded veteran has the chance to find their path back to a productive and proactive life.
